

Why EMP for Logistics

Logistics automation is at the heart of what we do at EMP Tech Group. We have built a technical services team that excels in barcode scanning, label printing, automated labeling, parts marking, RFID and machine vision systems. We sell and service hardware, and have an entire team dedicated to integrating these products into your operations.

Below is a highlight of hardware and services that we have been providing our existing logistics customers. We would love the opportunity to discuss your needs and make recommendations that fit your specific business requirements. Request an appointment today!

1 MOBILE COMPUTERS

TC8000 – Revolutionary Design, Revolutionary Productivity

Designed with your workers in mind, the TC8000 helps maximize productivity while minimizing strain and fatigue. The large touchscreen and popular Android operating system make it easy to use with minimal training required. And the super-rugged design helps it survive in challenging workplace environments.

TC75 – Enterprise Smarts, Field Toughness

The TC75 is an enterprise-class handheld computer for your frontline employees. Built for applications that take your people outside the four walls, its rugged design makes it more survivable than consumer devices. Advanced data capture, enhanced voice capabilities, and a range of accessories allow your workers to stay productive and connected wherever the job takes them.

ET5X – The Ultimate Business Tablet

Finally, a flexible business tablet you can customize for just about any job and any environment — from retail associates and warehouse workers inside the four walls to salespeople, delivery drivers and service technicians out in the field.

Vehicle-Mounted Computers – Powerful, Rugged, and Flexible

Give operators in material handling vehicles mobile access to the desktop applications they need to complete tasks faster and more accurately. Zebra’s rugged vehicle-mounted computers are built to hold up to life in a warehouse environment. The wide variety of options for mounting and accessories make them adaptable to nearly any vehicle or workflow.

2 BARCODE SCANNERS

DS36XX – Unstoppable Performance

The DS3600 series is the latest version of Zebra’s ultra-rugged line of barcode scanners. These scanners are engineered to withstand the harshest environments and deliver unmatched barcode reading capabilities. Zebra offers several models of this scanner including standard and extended range for 1D and 2D codes.

3 AUTOMATED LABELING

CTM – World Class Labeling Systems

CTM has built a reputation based on decades of good design, local manufacturing, and excellent support for customers interested in purchasing an automated labeling system. Our factory-certified in-house technical team can assist you in selecting the most appropriate and cost-effective automated labeling solution for your application.

4 LABEL PRINTERS

ZD420 – Fast, Flexible, Affordable

Building on the legacy of the industry-leading GK Series printers, the ZD420 Series delivers features and functionality that take deployment and management simplicity, ease-of-use and application flexibility and total cost of ownership to a new level.

ZT230 – Easy Setup, Operation, and Service

The durability of a metal frame and cover with an icon based LCD graphical user interface and larger ribbon capacity for long lasting use in demanding environments. Building on the legacy of the S4M printer, the new ZT200 series printers offer easier setup, operation, and service.

ZT410 – Performance and Advanced Features

Keep your critical operations running efficiently. Constructed with an all-metal frame and bi-fold door, ZT400 Series printers deliver advancements in print speed, registration and connectivity as well as additional advanced features.

QLn420 – Powerful Features in a Portable Form

Zebra's user-friendly QLn mobile printers help you print barcode labels and more, wherever and whenever needed. Optimized for high duty-cycle label and receipt printing, the QLn Series printers deliver higher workplace performance.

5 WLAN

Extreme Networks – WLAN and Wi-Fi Built for Enterprise

Your wireless network is the backbone that supports your connected mobile devices. Providing fast, secure, reliable wireless access to all these devices is no easy feat, which is why you need an enterprise-grade wireless network. Extreme Networks line of WLAN products will keep your workers connected, secure, and productive in all corners of your business.

6 DEVICE MANAGEMENT AND SERVICES

SOTI – Device Management Made Easy

Zebra is partnered with SOTI to bring customers MobiControl, one of the world's most trusted Enterprise Mobility Management and Bring Your Own Device Management solution. MobiControl enables organizations to manage, support, secure and track corporate-liable and employee-liable mobile devices from end to end.

Apex Locker Systems – Automated Locker and Dispensing Solutions

To optimize your warehouse operations and deliver real-time retail, you need 24/7 device visibility and accountability — see who is using devices, where, and for how long. Apex Automated Locker Systems for warehouses are intelligent, Internet-based devices that require employees to check out, check in, and recharge your mission-critical handhelds. Dramatically reduce replacement costs, misplaced or missing equipment, and downtime.

Zebra OneCare – Support, Service, and Peace of Mind

Every day, you depend on your Zebra mobile computers, barcode scanners and printers to keep your business up and running efficiently. Ensure you get the predictable and dependable performance you need to maximize device uptime and return on investment for your Zebra devices with Zebra OneCare Support Services.

EMP Maintenance Contract – Defeat Downtime

You rely on your label printers to work when you need them. Having reliable printers means you're able to hit production targets, fill orders, and do business without costly delays. With an onsite printer maintenance contract from EMP Tech Group, you can be confident your printers will always be operating at their best.

EMP Project Management – Hardware and Software Installation and Integration

EMP Tech Group has the experience, knowledge and staff to help you complete your next automation project on time and on budget. Our goal is to help you reduce the burden on your IT resources during your next hardware or software rollout. That means being there for you every step of the way to help you plan, implement, and train. Talk to us about your upcoming project today!

EMP WLAN Services – Site Surveys, Planning, and Installation

Your productivity depends on your wireless network. Make sure you have the coverage, reliability, security, and speed necessary to remain connected across your business. EMP Tech Group can address all your WLAN needs including site surveys, upgrades, installation and troubleshooting.
